The Fifty-Fourth Commencement

Although the program of events attendant upon the exercises of a Penn State graduating class varies but little from year to year each Commencement has a marked individuality. History tells us that in the pioneer days of the institution Commencement was known as Harvest Home Week when the occasion partook of the nature of a country fair. In recent years the first really distinctive Commencement was in 1905 when the Semi-Centennial Anniversary of the College was celebrated. Within the past decade the graduating periods have been marked by the interests and personalities of the principal Commencement speakers—one year, a leader in the industrial life of the country, another year, the diplomatic representative of a great foreign nation, again, the commander-in-chief of the regular army of our own nation, at other times, leaders in various lines of human endeavor have come to us and become the center of interest.

The Fifty-Fourth Commencement contributed a new character to this history. May it's shadow ever increase! The splendid baccalaureate sermon, the first Penn State organ recital, the fact that the class of 1914 was Penn State's largest class and graduated a larger percentage of it's original membership than any other previous class—all—were forced to provide a background for His Excellency, John K. Tener, the first Governor of the Commonwealth to present the Commencement Address to the graduating class. But—and in full appreciation, too, of Governor Tener's great service to the College—we must be fair and award the place of first prominence in the events of the 1914 Commencement to The Alumni.

1914 was truly an Alumni Commencement. A prominent alumnus in a letter recently received by the Alumni Secretary ex-

pressed it thus: "You should be most happy over the most successful alumni doings this year. They are the best yet. Within a few years Commencement will be known as an *alumni* function with some little attention paid to the graduating class."

THE FIRST DAY

Following a concert on the front campus Saturday morning the College cadets to the number of 1,000 officers and men marched to Beaver Field where they were reviewed by the President of the Board of Trustees, the President of the College and the Commandant of Cadets. President Sparks presented the commissions to the officers in a brief address in which he stated the historic fact that military drill was made compulsory upon the students of this college by action of President Lincoln who signed the act of Congress of July 2, 1862. He urged them to remember their military training in case the country again was threatened by internal or external foe and to respond as readily as their fathers responded to the call of President Lincoln. A large crowd of visitors filled the grandstand and bleachers to witness the drill.

In the afternoon the second game of the Pitt—Penn State baseball series was won by State in an exciting 7 to 4 contest.

At eight o'clock the largest audience which has attended a concert in years filled the Auditorium to greet the combined musical clubs. The reputation gained by the clubs under the training of Professor Robinson was maintained in the serious first part and also in the lighter second part. Some of the "stunts" would do credit to the vaudeville stage. The quartette which sang last winter at Panama gained large applause as did the Freshman quartette.

Following the concert, the Class of '14, assembled near the Alumni tents and maintained a tradition which now seems fully established at Penn State. They treated the many visitors to a splendid sample of campus singing, ending with Alma Mater.

BACCALAUREATE SUNDAY

Sunday was clear and warm. The Auditorium was packed to the doors when the Rev. William B. Jennings arose to deliver his sermon to the graduating class. Following is a resume of his most interesting address:

Ecclesiastes 9:11—"Rejoice * * * ; but know that * * *."

Pleasure, its rightfulness, its limitations and its costliness, are the suggested teachings of the text, which spoken to young people standing at the point in life "where brook and river meet" are the key to life.

The rightfulness of pleasure, though by no means the highest end to be sought in life, lies in the very constitution of man, so planned that every natural exercise of function gives pleasure; in the constitution of the outside world upon which we read clearly God's wish that we be happy; the Scriptures too attest the same fact, the Bible having in it messages of joy, commands to joy and gifts of joy; and if anything more be needed we have it in the practice of Jesus, who in total contrast to his forerunner, John the Baptist, came eating, drinking and mingling with men. Mrs. Oliphant says of old Giotto, one of the cathedral builders of Florence, that he "strayed about Italy from town to town among the feastings and fightings, leaving here a mild-eyed Madonna, there a group of saints in Glory, jogging cheerfully along, everybody's friend and betraying his course wherever he went by something beautiful, some bit of rude common wall blossomed into an immortal thing." So Jesus walked up and down the world shedding joy and gladness wherever he went.

Good words, like good people, sometimes are dragged into bad company and then are judged by those with whom they associate. So it is with the word "pleasure." Itself without fault and indicative of a thing essentially good, it has come to be looked upon as synonymous with certain sinful indulgences. We need to restore the word to its right meaning; we must rescue the thing itself from the captivity into which it has fallen. Pleasure is not "heresy." It is orthodoxy and should be in our creed and practice. Have the courage to be happy! Pray, as did Stevenson, for "gaiety!" Practice gladness!

In adding the word "but" to "rejoice" there is suggested some limitations to pleasure, meant not to shut us out from any joys but to shut us into the highest and most lasting. Careful stu-

dents have found these limitations to be three. Pleasurable exercise of function must not overtax and so injure the organ or faculty involved. Novel reading for example, right in itself, may be indulged to the point that one is wholly unfitted for the severer thought-tasks of life. A second limitation is at the point where the pleasurable exercise of any organ or faculty hurts another part of our complex nature. The joys of religion may be had at the expense of the body's hurt by too long vigils, too protracted meditation, too great emotional excitement. On the other hand legitimate college athletics may be allowed to rob the mind, and delight in outdoor sports may lead us to spend the Sabbath in other ways than the culture of holiness through the worship of God. Pleasure finds its remaining limit when in its enjoyment another is hurt. The divine command is the fundamental law of sociology "Look each of you to his own things, but each of you also to the things of others." When, therefore, our pleasure is purchased at the physical or moral or religious hurt of another that pleasure becomes sin and quickly turns to pain. An old writer puts it thus, "Pleasure must first have the warrant that it is without sin; and then the measure, that it is without excess."

The remaining suggestion of the text, lying beneath the surface but there, is the costliness of pleasure.

Robert Louis Stevenson was wont to pray, "Deliver us from mean hopes and cheap pleasures." Are pleasures ever cheap? In the sense of being without cost. No. John Foster, the brilliant essayist, said long ago, "All pleasure must be bought at the price of pain. The only difference between false and true pleasure is that for the true the price is paid before you enjoy it—for the false after you enjoy it." See how large is the cost of false pleasure. Drink, for example, at first costs but a few cents; its last cost is health of body, clearness and balance of mind, the disruption of love ties, the sacrifice of the soul's life. The pleasures that lie outside the boundaries prescribed are as illusionary and disappointing and enslaving and at the same time as costly as were the imagined delights that lay beyond the home-fence and the ten commandments for the younger son in our Lord's parable.

Contrast the costliness of false pleasure, not at its first enjoyment but at the end, with that of the true. The far largest payment for every real joy must be made before one enters on it. Even religion is no exception. Christ tells us the cost of God and Heaven

and bids us beforehand weigh it. The assurance of pleasure is like a certain form of life insurance in which the lessened premiums bring growing dividends. I speak as to wise men.

This is my message and I could give none more important in our age which is pleasure mad.

In view of the rightfulness of pleasure I beg you, in the words of the Shepherd of Hermas, "Put on, therefore, gladness that hath always favor with God, and is acceptable unto Him, and delight thyself in it." But know that the domain of pleasure, though wide-extended is yet bounded. Let not these boundaries be to you what the Sage of Concord says "a fence is to a school boy—an irresistible temptation to jump." Remain gladly within them. And be wise enough to forecast the ultimate cost of pleasure. Buy the real pleasures, the payments of which are heaviest at the beginning but grow lighter as you go on; rather than the false pleasures, glitteringly alluring, boundlessly promiseful, which constantly decrease in delight but demand ever heavier payments, the last of which is paradise and eternal life. The pleasure of the man who is right with God and walks in His ways is like the path of the just that "shineth more and more unto the perfect day." Enjoy that!

In this Baccalaureate service, the new organ placed in the Auditorium by the Class of 1914, was used for the first time. At three o'clock of the same day, the Auditorium was filled with persons interested in music who had assembled to hear the dedicatory recital given on the new organ. The following program was played by Mr. Charles E. Clemens, of Cleveland, Ohio:

A band concert on the campus followed at 4:30. At 6:30 a great crowd assembled at the Punch Bowl on the front campus for the joint meeting of the Christian Associations. Dr. Jennings, of Philadelphia, and Professor Alva Agee, of Rutgers College, were the speakers. Professor Agee was cordially welcomed by his many former pupils. The sacred concert at 8 o'clock filled the Auditorium and hundreds stood in the entrance and doorways. So closed a busy Sunday.

CLASS DAY

The Class of 1914 instituted several new customs in it's Class Day ceremonies which greatly enhance the significance of the occasion and increase it's traditional worth.

On Monday, June 8th, the 325 members of the graduating class met in Old Chapel for the last business meeting after which tobacco

and pipes were distributed to all the members. The class then formed into a long line and headed by the cadet band marched to the Punch Bowl on the front campus for the formal farewell ceremonies.

Miles Horst, President of the class, addressed the large crowd and in a very concise talk reviewed the history of the college and the class in the past four years. A. T. McNeile, as pipe orator, presented the large peace pipe to J. L. Mathers, President of the class of 1915, and entrusted to the next senior class the responsibility of college leadership for the ensuing year. Mr. Mathers made an excellent speech of acceptance, in which he promised that his class would endeavor to follow the excellent example set by the outgoing seniors. Homer Hughes, with capable wit, presented to various members of the class little gifts characteristic of the undergraduate activities of the recipients. The last presentations were made to the three honor men elected by the class: Spoon Man, E. E. Miller; Barrel Man, Miles Horst; Cane Man, P. E. Rinehart.

The class did not observe the precedent of planting ivy, but substituted the gift of a drinking fountain located at The Willow as a more practical memorial. The fountain oration was delivered by F. C. Dosé.

The class next marched into the Auditorium where Clarence Keyser formally presented the organ, the memorial gift of the class. It cost about \$5,500. The class was aided by some generous alumni and the entire cost is almost met at the present time. In accepting the gift, Mr. H. W. Mitchell, President of the Board of Trustees, congratulated the class on selecting a gift which would add to the cultural development of the students; which would be of service at any time or day of the year; and which would grow in value and usefulness as the years passed.

At the close of these remarks, Professor Robinson took his place at the organ and for the first time the Alma Mater was sung to the great volume of music of which the instrument is capable. One cannot imagine how many times or under what circumstances the old song will be sung to the organ accompaniment in the many years to come.

The Class Day exercises, judging from the comments of the spectators, were more carefully arranged and better carried out than the ordinary run of such exercises. The class of 1914 accomplished much during its four years that will be of lasting

benefit to the college and in it's efforts to preserve the ideals and traditions of Alma Mater has set a splendid mark for future classes to follow.

On Alumni Day '14 had a prominent place in the different events of the day and entered heartily into the alumni spirit of the occasion. A record established by the class of 1914 on this occasion should not go unnoticed—185 members of the class joined the General Alumni Association before their graduation day, thereby placing 1914 close to the top in the ranking of classes according to percentage in Association membership.

THE JUNIOR ORATORICAL CONTEST

The Forty-Second Junior Oratorical Contest at eight o'clock was warmly contested on Monday evening. Mr. Beatty Henderson Dimit was declared the winner of the first prize of \$50 offered by Mr. Thomas W. Barlow, '77, and the second prize of \$25 was divided between Arthur Carl Horst and Edgar Frederic Ottmyer owing to a tie vote of the judges of the contest.

ALUMNI DAY

Tuesday, June 9th, was properly labeled "Our Day" by the visiting alumni. Although the white class badges were very much in evidence all through Commencement Week, the events of Alumni Day served to emphasize this rapidly developing phase of Penn State life and to clearly establish this day as one of the leading features of a Penn State Commencement.

Alumni reunions at the college have been growing in interest and importance for a number of years but the 1914 Commencement marks the beginning of a distinctly new and broader era in Penn State alumni history. This year recorded by far the largest attendance of alumni at any celebration at the college and the class reunions were especially well attended and keenly enjoyed. Perhaps the most encouraging thing was the universal interest shown in the more serious business of the college and the wide and free expression of loyalty and willingness to serve her cause. The Booster Spirit prevailed.

The alumni features of Commencement, too, were brought into sharper contrast with the other events of the week through a novel form of Alumni Headquarters. Alumni activity radiated from two large tents conspicuously located on the front campus. One of the tents provided a general lounging and meeting place for the reunion classes; the other—"The Big Tent"—housed the General Alumni Association office with the registration desk, a visitor's service bureau and a buffet lunch.

The opening gun of Alumni Day was fired by the Class of 1909. At 9 A. M. the "09 Booster Brigade," dressed in full reunion regalia and aided and abetted by a ten piece brass band, cheered their way through the streets of the village and campus to arouse those sleepers who had failed to respond to the more gentle persuasion of "Big Ben." The "Brigade" successfully carried out it's mission and contributed a good alumni attendance at the ceremony of welcome to the class of '64 and the annual business meeting of the General Alumni Association which immediately followed.

* * * * *

The picnic luncheon served on the campus around The Big Tent served to hold the crowd in check until the time set for the Pee-rade and Stunts. At two o'clock the "best alumni parade, ever," started on it's brief march through the village streets to the

Punch Bowl on the front campus. The Penn State Cadet Band led the line followed by automobiles carrying '64 and members of the classes up to the early eighties. Then on foot came '85, '87, '89, '90, and '92. Next in line was the 20th Reunion Class—'94—and it may be said that this class well deserved the applause it received along the route. The '94 section was led by the famous Boy Scout Band of Lewistown, an organization with a national reputation (and worthy of it's reputation, too), which was imported by '94 especially for Alumni Day. Following the band the '94 sweet-hearts, sisters, wives and children rolled along in sumptuous auto equipage (undoubtedly supplied by the predatory rich of the class). Then came the white hatted men of '94 with a record turnout of the class.

In increasing numbers the classes of the next ten years came along in order of graduation. 1904—back for it's Tenth Reunion—was the next class to attract special attention. In reverant memory of a dead past the ten-year men adorned themselves in house-painter's garb and tenderly bore the isignia of their undergraduate art upon a two-wheeled paint chariot. As this section of the parade passed along many native Centre Countians among the spectators were observed to shudder and offer up prayers that red paint would never again become fashionable in college circles.

'05, '06, '07 and '08 were in line with good delegations followed by the spectacular presentation of the Class of 1909. The Five Year Class firmly established the precedent set up last year by '08. First came a snappy looking company of "U. S. Regulars" led by "Pop" Gleason, then the Dove of Peace in an automobile conveyed by a bottle of "Welch's" and "William Jennings Bryan" Meek. The Mexican contingent—and a desperate looking crew they were—brought up the rear.

As the big delegations of '10, '11, '12 and '13 ambled along they appeared to be framing up Five Year Stunts to "put one over on '09." The class of 1914 added a neat finish to the procession by appearing in their Class Day costume of white flannels.

* * * * *

Forming a great semi-circle on the slopes of the Punch Bowl the marchers and their friends took their ease to enjoy a new and revised version of Stunts. The program follows:

The alumni section of the grandstand at the Chinese University-Penn State baseball game was enlivened by an interesting bit of by-play that was not included in the regular program and which served to show that freshman-sophomore class rivalry does not become entirely extinct even after the lapse of twenty-three years.

The class of ’94 had settled itself comfortably in the bleachers to enjoy the game and in an exciting moment on the diamond the ’94 men had relaxed their vigilance over the beloved class banner. They were suddenly brought back to earth, however, by observing a cocky little ’95 banner leading a two-man procession across the field with “Raz” Rogers, ’95, bearing aloft the ’94 colors—in flames. ’94 shed all dignity in responding to the fire alarm. The chase was brief but thrilling. The former star of the famous Toothpick Football team was no match for his pursuers. John White, ’94, cinder path hero of the early nineties, soon distanced his class mates, closed the gap in old time form and led the desecrator of the colors, winded and dejected, before the grandstand to publicly promise “never to do it again.” Incidentally, this was the second defeat ’95 had suffered in the same day. Earlier in the afternoon Rogers had attempted to “add some real class” to the ’94 Reunion picture by seating himself prominently in the group before the camera. He was ejected gently but firmly.

The Alumni Reception and Dance in the Armory closed most pleasantly a well filled day. In previous years a wide spread distribution of admission tickets resulted in a congestion of the dancing floor which was avoided this year by admitting only members of the General Alumni Association. The arrangement of the dance program, too, seemed to better suit the varying tastes of the alumni,

in that the devotees of both the old and new style dances had their innings.

The 1914 Alumni Day left an indellible and most pleasant impress upon the memories of those who returned to the College to participate in it's program. As has been noted elsewhere in this issue it will be this day by which the Fifty-Fourth Commencement will be remembered. To those who are deeply interested in the future of our Alma Mater this day has given new inspiration and renewed zeal for service in her behalf.

THE CLASS REUNIONS

1861

No reunion since that of '61 can be compared with that of '64. Every living member of the class except two, who were incapacitated for travel, was present and the number was supplemented by a member of the faculty of that date. Following is a list of those present: William M. Atkinson, McVeytown, Pa.; Alexander Wilis Crain, Wewoko, Oklahoma; George E. Demuth, Philadelphia; Thompson D. Frazer, St. Joseph, Mo.; John P. Harlan, Philadelphia; William Potter Humes, Bellefonte; William Worrall Marks, Lewistown, Pa.; James Polk Orr, Pittsburgh; Wallace Pierce, Long Beach, California; Joseph E. Schell, Glenolden, Pa.; A. N. Sutton, St. George, Md.; Gabriel S. Terry, Little Falls, New Jersey; and William George Waring, Webb City, Mo.

The member of the faculty was the Rev. John H. Lease, of Cincinnati, Ohio, Professor of Philosophy and English Literature in the college in 1864. Short speeches were made by different members of the class as each was introduced to the President of the College. Dr. Lease referred to the unpromising condition of things when he was here and contrasted it with the marvelous development of the present. Yells for '64 were given by '09, '04, and '94, who had marched into the Auditorium in their class costumes. The Commencement visitors present were intensely impressed by the sight of these old men of '64 returning to pay tribute to their college after a lapse of fifty years.

No part of the Commencement exercises is more touching than the reunion of these fifty-year classes. The records of the college were imperfectly kept in those days and the task of locating the men is arduous and painstaking. It has been done during the past four years by a committee of which Dean Pond is Chairman.

1894

A '94 man, a resident of a nearby city, had not seen his college for nigh unto twenty years. He had almost forgotten that he was a Penn State man—he had been busy building a successful business and a stable professional reputation. Some months ago he received a letter bearing the legend, "The Twentieth Reunion of Penn State's Class of '94—Be There." Later he received other documentary appeals of a similar nature. These epistolary bombs, however, fell wide of the target of this man's decision. Then he received a tele-

gram urgently calling him to the Twentieth Roundup. The telegram came collect. Then he received another telegraphic summons—charges collect. Still another telegram—collect. In self defense, he hurriedly took a train for State College. And then, how he did enjoy himself! Yea verily, he openly confessed himself a backslider and forthwith enlisted as a "Booster."

The foregoing is unvarnished testimony of the able efforts of "Persistence" B. Brenneman and J. "Alwaysafterem" Aikens committeemen extraordinary for '94's Twentieth Reunion.

Most of the class, however, returned more willingly, notably John Beaver White who came from his home in London, England, especially for the occasion, and a splendid turnout of 21 members of the class was recorded.

That even the smallest crevice of time might be filled with joy and life, '94 brought along its own band—the Famous Boy Scout Band, of Lewistown, and that crack musical organization contributed largely to the success of the entire Alumni Day program.

At nine P. M. Committeeman Aikens became Host Aikens, and entertained the classmen and their wives at a bumper dinner at Nit-tany Inn. This was truly an occasion of double dyed enthusiasm.

At a brief business meeting of the class following the dinner A. F. Damon and P. B. Brenneman were re-elected President and Secretary to serve until the Twenty-Fifth Reunion in 1919. Steps were taken at this meeting to present the College with a substantial memorial of the class on the occasion of their twenty-fifth reunion. If confidence counts for anything '94 will be there 100 per cent. strong in 1919.

1904

In numbers only was the Ten-Year Reunion of '04 disappointing. Enthusiasm, extravagant use of red paint and conspicuous white uniforms placed the minority representation very much in the foreground. Even an inkling of the good times should make the stay-at-homes envious and full of good resolutions for 1919.

Early rising villagers on Alumni Day were taken back to the days of chivalry by a startling display of 1904 numerals in glaring carmine. On the tower of Old Main, in flower beds, on trees—everywhere, were "good morning greetings" done in "'04 red paint." No, anxious inquirer, the signs were all removable. 1904, for once, was merciful and resorted to canvas and easily detached shingles for the execution of its art.

Aside from it's parade "stunt," which is described elsewhere in this issue, the class had no formal reunion program—perhaps the easy informality added to the pleasure of the occasion. The bunch just "bummed around," geyed one another, refreshed the memories of undergraduate days and made plans for a bigger and better reunion next time.

1909

The old "Blue Goose," more or less changed since that day in June, 1909, when we bade each other good-bye in the Punch Bowl on the front campus, but nevertheless, the same old Blue Goose, was, on the evening of June 8th, 1914, the scene of the first meeting of '09 men after years of hard toil in "the wide, wide world." Remember the song we used to sing—"Where, oh, where are the dear old seniors, safe now in the wide, wide world?" Remember the little thrill that we used to experience as the end of that song was reached?

The same little thrill, cherished and nourished into a really and truly honest to goodness thrill, was felt by forty jubilant and happy '09 men as "Dick" Pennock gave the signal that started a rousing old time class yell. Our class always did show real form with that yell and the ravages of time had apparently effected the '09 vocal chords but little.

After the class yell, the fellows were seated about the festive board and were treated to a course dinner that would have been absolutely perfect had every member of our class been present to partake of it. As it was, we enjoyed it. We enjoyed it beyond words to tell, and yet—what did they serve us? Possibly we do not remember, which shows conclusively that we did enjoy it immensely.

So much happens at Penn State at Commencement time these days—and no one wants to miss any of it—that it was decided that "Dick" Pennock should act as temporary chairman and carry on a business meeting while the dinner was in progress. It worked very well indeed except that "Dick" got little, if anything, to eat and "Pop" Gleason almost broke up the party by passing around a picture of "Pop" Gleason, Jr., wearing an old '09 jersey and waving an '09 pennant. In proper order, nominations for new class officers to serve until June, 1919, were asked for and the following were unanimously elected: R. M. Pennock, President; A. G. Frick, Vice President; P. Edwin Thomas, Secretary; W. B. Furst, Treasurer.

The new officers immediately took up their respective duties and there followed next a report from the treasurer, W. B. Furst. The first report was that of the financial standing of the class in June, 1909. This report follows:

At the conclusion of these reports, it was unanimously voted to express our appreciation to "Bud" for his excellent work in taking care of our finances in the able manner in which he did.

The report on finances seemed to take some of the fellows back some nine years to the days of the old flag scraps. Someone inquired for an '08 financial statement and for some ten minutes the chairman tried in vain to bring the crowd to order. Apparently no one had forgotten the "land battleship" or "machine" that our rivals built and how it was so timely reduced to ashes before ever seeing active service.

Before we graduated, it was voted to dispose of our class money at a meeting to be held at the time of our five-year re-union. Accordingly, the question was introduced and there followed a report of a conversation with our college president, Dr. E. E. Sparks. Dr. Sparks stated that any money we had to dispose of, could be used to best advantage in connection with the new college hospital. We took Dr. Sparks' word for it because we knew that he knew what the college needed most of all. By unanimous vote, \$500.00 was given to this project with no restrictions regarding its expenditure. The request was made that a small tablet be placed somewhere in the new building stating simply that '09 contributed toward it. The balance of the money in our treasury was voted to be held to defray the expenses of our five-year re-union, as authorized by Karl Marsh, and to carry on the business of our class during the next five years.

Next followed a discussion of the class "stunt" to be staged the next day. All plans were rapidly perfected and then was introduced the subject of the advancement of our general Alumni Association as the best means of advancing the interests of our college. As every '09 man present was an active member of the Alumni Association and a real "Booster," as evidenced by his being present at our first home-coming, it was felt that the members of our class who were not present and particularly those who were not actively affiliated with the Alumni Association, were the ones to be reached with an appeal to join the Association immediately and lend all possible support during the next five years.

Many men may feel that our college is expanding as rapidly, without their support, as it should expand, consistent with all things. But that is not the point! The college needs the full and hearty support of every Alumnus in order that appropriations can be secured to take care of the already too large student body. Under the magnificent leadership of Dr. Sparks, new students in great numbers are attracted to Penn State each year. Many of these fellows are being denied admission, not because they are not fully prepared to enter but because the college with its present equipment cannot accommodate them. We '09 men are now enjoying the benefits of four years at good old Penn State. Do you wish to see anyone denied the privilege of being a Penn State student and graduate? We seem to hear the answer in a loud chorus from all '09 men, "most certainly not." The little thing to do, then, is to sit down now and write a check for two dollars and mail it to the general Alumni sec-

retary at 120 Main Building, if you are not already a real live booster. When that is done, you will feel at ease with yourself again. Try it fellows, once a booster, always a booster and the fun you get out of it is only to be compared with those good old times between the Fall of '05 and the Spring of '09.

The next topic of discussion concerned our Penn State Alumni Quarterly. It was unanimously agreed that this Alumni magazine fills, in a measure at least, the broad gap between today and the days of our college course. However, the suggestion was made that a monthly magazine would do still more good and the suggestion fell upon fertile ground. A few minutes later it was voted to recommend to our general Alumni Association that the change in issue of our magazine be made at the earliest possible date.

The next and last motion made and carried, authorized the Secretary of our class to issue for distribution in June, 1919, an '09 Ten-Year book. This Year book will resemble the Year books of other colleges and universities. It will also resemble, in a way, the Penn State La Vie. The expense of issuing such a book will be taken care of by an assessment levied in June, 1919, at which time each member of our class shall receive one copy. The active work of preparation will no doubt begin about June, 1918, but meanwhile the Secretary invites suggestions from the entire class. The task of preparing this book will be large and the Secretary will need much help.

At this point the dinner had reached the very last course and the real treat of the evening was enjoyed—good old “creamery” ice cream. After an absence of five years, a Penn State man can really relish a nice, large, lovely dish of creamery ice cream. Eh, what?

The dinner was over, the college yell (the old one) rang through the halls of the Blue Goose and then “chica cha he, cha ha, cha hine, Pennsy State, 1909” split the ears of a large crowd of curious spectators who had gathered to find out what the big noise was about. We moved in a body to the old “Co-Op” corner and there repeated our yells. From that point we dispersed, each to greet and be greeted by many old friends whom we had not seen for years, and to meet next day to make preparations for the big '09 stunt.

According to schedule, the '09 forces assembled at eight o'clock on Alumni Day, June 9th, at the big Alumni tent on the front campus. Half of the men wore regulation Army uniforms and the other half were garbed as Mexican greasers with all the spangles, point-

ed hats, etc., that are supposed to go with the outfit. The early morning greetings and salutations were indeed rich to hear. A section of the college cadet band reported for duty and soon the two armies were off on a complete tour of the village and campus to arouse from their downy couches all Alumni, young and old, who were in attendance for Commencement.

The tramp, tramp of the soldiers, the rat-a-tat-tat of the drums and the jabbering and yelling of the dusky peons soon caused a stir in the sleepy village. One after another of the Alumni joined the sidewalk crowd and followed the main street parade from one square to another. By the time the drum corps halted in front of the Auditorium, the largest crowd of Alumni in the history of the college was present to enter the chapel and welcome the class of '64.

After the welcome to '64 the general Alumni business meeting was held. When the roll was called, '09 was there forty-one strong. An account of the general Alumni meeting will be found in the July Quarterly. From the chapel the crowd moved to the Alumni tent where we all shook hands with Dr. Sparks, Governor Tener and others and then partook of an Alumni luncheon. The different classes grouped themselves among the trees near the Senior benches and talked and sang as they ate.

The Alumni parade formed soon afterwards and '09 took its place in line, each man now armed with a Krag rifle and supplied with some forty or fifty rounds of ammunition. The big parade passed through the village and then back to the Punch Bowl on the front campus. The classes "put on" their "stunts" beginning with the oldest class and going down the line. The antics of the Alumni were thoroughly enjoyed by the big crowd that was present. Last in order came the call for '09. A Penn'a. State Constabulary man cleared the crowd from the Punch Bowl and also cleared the space from the Punch Bowl to College Avenue. The Mexican army took up its position in the Bowl itself and back of and in the nearby trees. The U. S. army intrenched itself back of the slight elevation at the edge of the campus.

The U. S. General gave the command to his men to advance and fire at will. Twenty Krags can make some noise. Add to that twenty more Krags in the hands of half starved Peons and mountain bandits and you will get some idea of the terrific battle that raged on the very edge of our beloved campus. The crowd of wide-eyed spectators were amused, delighted and satisfied and we, after firing

all the ammunition we had, were satisfied that we could be boys again and thoroughly enjoy ourselves and also satisfied that we had not blown off some one's head with flying wads from our blank ammunition.

The base ball game was next, then dinner, then the Thespians and last, the Alumni dance and reception. Space prohibits detailed accounts of the above. Sorry! Just remember this: in 1914, forty-one '09 men had the best time they had had in five years. Also remember this: in 1919, we are going to put the 1914 home-coming to shame. It is never too early to plan for a re-union. Start now putting away buffalo nickels for the big '09 event in 1919.

P. EDWIN THOMAS, Alumni Secretary, '09.

THE ALUMNAE

On Tuesday of Commencement Week the Alumnae Club of the Pennsylvania State College held its annual meeting and supper. The sixteen members present were Mrs. Miller, from Lock Haven; Dr. Meek, Mrs. Olewine and Miss Harrison, from Bellefonte; Mrs. Jackson, from Harrisburg; Mrs. Kottcamp, from Brooklyn, and Mrs. Dale, Miss Bower, Miss Nannie Bailey, Miss Mary Bailey, Miss Miller, Miss Glenn, Miss Lawsing, and Miss MacDonald, from State College. The guests present were Miss Lovejoy and seven women members of the graduating class. The delicious supper was beautifully served by Mrs. Sellers and was most thoroughly enjoyed by everyone.

Informal talks were made by Miss Lovejoy, by Dr. Meek, by Mrs. Jackson and by Miss Williams, of the Senior class. Reports were made by the Treasurer, and by the Chairman of the Hospital Committee. A committee was appointed by the President to further investigate eligibility for membership in the Association of Collegiate Alumnae.

The following officers were re-elected for 1914-15: President, Mrs. Blanche Pattison Miller; Vice President, Miss Olive Miller; Treasurer, Mrs. Mary Thompson Dale; Secretary, Miss Margaret B. MacDonald.

MINUTES OF ANNUAL BUSINESS MEETING OF GENERAL ALUMNI ASSOCIATION

The annual business meeting of the General Alumni Association was called to order by President Williamson at 10:30 A. M., Tuesday, June 9th, in Schwab Auditorium immediately following the public welcome to the Class of 1864.

The following classes responded to roll call: '62, '64 (by introduction of the individual members), '80, '84, '87, '89, '90, '92, '93, '94, '95, '96, '97, '98, '99, '00, '02, '03, '04, '05, '06, '07, '08, '09, '10, '11, '12, '13, '14.

A. D. Belt, '94, J. F. Tritle, '04, and P. E. Thomas, '09, were appointed tellers to canvass the vote for General Association officers for the year 1914-1915.

President Sparks addressed the Association with special reference to a memorial to the late General James A. Beaver and submitted for approval the idea of a James A. Beaver Memorial Social Hall as the most appropriate form to perpetuate the name of Penn State's great friend. George R. Meek, '90, expressed the sentiment of the alumni in favor of such a project. Upon motion of J. F. Rodgers, '95, a committee consisting of H. W. Mitchell, '90, J. F. Shields, '92, R. W. Williamson, '93, M. S. McDowell, '92, and R. H. Smith, '05, was appointed to confer with President Sparks upon methods for raising funds for the erection of such a memorial.

A. C. Read, '92, chairman of the Alumni Advisory Athletic committee, reported that during the past year the eligibility code of the Athletic Association had been placed on an equal plane with the best American colleges by the adoption of the One-Year Rule and that financially the Association was in most satisfactory condition.

H. W. Mitchell, '90, for the Committee on extension of Alumni Association Work, reported that the "Booster Campaign" as perfected by the committee and outlined in a recent issue of *The Quarterly*, had met with approval in a number of the branch associations and that the Board of Trustees of the College had endorsed the movement in their meeting of June 8th and voted a contribution of \$500.00 to the campaign with the promise of additional support at a later date.

R. M. Pennock, '09, presented a resolution passed by his class urging the Association to consider changing the Alumni Magazine

from quarterly to monthly issue as a most important measure for improving the effectiveness of the Alumni Association project.

Report of Secretary-Treasurer: "In a work such as is being attempted by the General Alumni Association—where the effort is to create a certain mental attitude rather than to build a material structure—it is difficult to show clearly defined results. Accomplishment can only be measured in the effects of an aroused interest, an awakened sense of obligation and a resolution to "get busy and boost" on the part of the general alumni body."

Figures of General Association enrollment show a steady growth:

	Active	Associate	Total
June 1, 1912.....	712	...	712
June 1, 1913.....	714	41	755
June 1, 1914.....	833	56	889

During the year the Secretary attended branch association meetings in Boston, New York, Schenectady, Philadelphia, Harrisburg, Wilkes-Barre, Pittsburgh, Buffalo, Cleveland, Baltimore, and Chicago. Full reports of these meetings were given in the January issue of *The Quarterly*. Over 600 Penn State men and women were met in these meetings. In every gathering there was shown an earnest interest in affairs at the College, a spirit of optimism for the future, an intelligent appreciation of her problems and difficulties and a general expression of willingness to "boost."

No new branch associations were formed during the year but several were revived and started on a promising career of service, notably Harrisburg and Wilkes-Barre-Scranton. A new organization in Erie will be organized within a few months. Outside the state of Pennsylvania there remains probably but one centre in which there are enough Penn State men to maintain a live organization—that is Washington, D. C. It is hoped that the Washington men will perfect a branch during the coming year. Within the state there are a number of opportunities for further organization which will be taken up during the coming year.

In November, 1913, the Secretary attended the Second Annual Conference of Alumni Secretaries held in Chicago and received much of benefit to our own organization. This conference has developed into a strong organization, the 1913 meeting being attended by representatives from fifty-two American colleges.

The Secretary owes the Association an apology for the delayed issue of The Quarterly during the past year. Owing to the heavy volume of work falling upon the combined office of Alumni Secretary and Graduate Manager of Athletics at the opening of the college year the October number was late in publication. It was thought wise in this case to maintain the regular period of issue for the balance of the year. The news contained in each issue, however, was not old by reason of this fact.

In January of this year the special committee of the Association adopted the program for the Booster Campaign, the essential features of which were outlined in the January Quarterly. The preliminary work in preparation for the campaign is well along toward completion. The most modern addressing machinery has been installed and provides for accurate and rapid distribution of mail matter. The names of all graduates are now set up on this equipment and in addition over 1000 non-graduates of the college have been located and their correct addresses added to the new lists. The Booster Number of The Quarterly as the initial piece of publicity in the new campaign was sent to over 3000 Penn State men and women, every name now on our lists.

The inauguration of the Booster Campaign involved an expenditure in excess of the prospective regular income for the year. To aid the project, donations of \$200.00 each were received from the College, the School of Engineering and the School of Agriculture. These gifts, however, were not sufficient to meet the total increased expense and it was necessary to draw upon the small surplus remaining in the Association treasury from the previous fiscal year.

As a most effective means of developing the loyal alumnus of the future, the Secretary has opened up a new field of activity among the undergraduate body. An effort is being made to interest all the undergraduate organizations in the projects of the General Alumni Association. Fraternities, athletic organizations, musical clubs, etc., have had the matter presented to them with emphasis upon the relation of the alumni of these clubs to the college and the club itself and each organization urged to co-operate with the General Alumni Secretary through a club alumni secretary. In this effort the Secretary is meeting with encouraging results. The development of the Class Alumni Secretary is another phase of the undergraduate work which should result in the strengthening of that unit of the alumni body. In some of the older American colleges the Class is the foun-

dation of powerful alumni organizations. To complete the organization of class secretaries in our alumni body the Secretary has canvassed to learn those classes who have such an officer and where no such position is provided for to urge the selection of a competent and "live" class secretary.

Owing to the fact that all bills for the fiscal year just closed have not been received it is not possible to present a detailed financial statement at this time. A full report properly audited will be published in the next issue of The Quarterly.

The program of the Association work under the Booster Campaign for the coming year is under careful consideration of the Board of Managers at the present time. This involves a continuation of the work already begun as noted above, a comprehensive legislative campaign, the perfection of an organization of County Clubs throughout the state of Pennsylvania, and either a change in the period of publication of the Alumni Magazine from quarterly to monthly issue or a continuation of the magazine as it is at present with the addition of a monthly publication of somewhat different form than The Quarterly. The financing of this program, however, presents a problem. In addition to the expense of a more comprehensive publication the greater volume of work demands expenditure for additional office help. As has been reported by Mr. Mitchell, the Board of Trustees of the College has contributed \$500.00 to the campaign fund and one alumnus has agreed to join with other alumni in underwriting the balance of the fund needed, pledging himself to contribute \$200.00 per year for five years. At the present moment the entire fund has not been subscribed.

Before closing this report the Secretary wishes to call to the attention of the members two conditions which might be greatly improved by making better provision for them in the Constitution of the Association. (1) The percentage of alumni in active Association membership is too low. The consistent co-operation of classes, district associations and particular alumni groups such as the Varsity Club can greatly increase the ratio. It has been suggested that direct vote on General Alumni Association projects be confined to an Alumni Council of delegates from those classes, district associations and special alumni groups who maintain a certain percentage of their members in good standing in General Alumni Association membership. The Board of Managers as constituted at present would occupy the position of an executive committee of the

Council. The adoption of a scheme such as this should not only increase the General Association membership but it would greatly facilitate the handling of Association business. (2) The alumni are continually being besieged by various college and undergraduate organizations for financial support. All of the projects are no doubt worthy but the lack of co-operation among the interests seeking assistance results in waste effort and positive annoyance to the alumnus. This condition might be improved to all round advantage by the General Alumni Association, either in the annual business meeting, in the Council suggested above or in the Board of Managers, annually recommending to the alumni certain projects deserving of their support for the ensuing year."

On motion of W. M. Lowry, '84, the two recommendations contained in the last paragraph of the report of the Secretary were referred to the Board of Managers for further consideration and report.

On motion of E. W. Bush, '92, the Secretary was instructed to cast a ballot for the following Alumni Advisory Athletic Committee: A. C. Read, '92, Ch., G. R. Meek, '90, J. E. Quigley, '94, C. W. Heppenstall, '95, J. H. M. Andrews, '98.

The tellers reported the results of the election of officers for the year 1914-15, as follows: President, R. W. Williamson, '93; Vice President (3 year term), A. G. McKee, '91; Secretary-Treasurer, R. H. Smith, '05; Managers (3 year terms), R. L. Watts, '90, J. P. Jackson, '89.

On motion of W. F. White, '87, a vote of thanks was extended to R. H. Smith, Alumni Secretary, for his service during the past year.

..

A Committee consisting of J. L. Hamill, H. W. Mitchell and J. E. Quigley was appointed to draft a Memorial Minute to the late General James A. Beaver.

Adjournment.

R. H. SMITH, '05, Secretary.

PHI KAPPA PHI

The Phi Kappa Phi honorary society, for which only honor students of the graduating class are eligible, initiated the following students at 9:30 Tuesday:

Albert Babbitt, Paschal William Barr, Theodore Lincoln Bittenbender, James Donald Carpenter, George Washington Crawford, Joseph Fine, Wilber Carroll Gillespie, Frank Russell Gould, Walter Franklin Graham, Miss Martha Anna Hauser, Charles Frederick Henney, Russell Whedon Hill, Paul Maxwell Hittner, Charles Henry Kunsman, William Ross Little, Edward Lewis Lucking, John Nicholas Ludwig, Jr., Samuel Jay McCartney, Joseph James McGarrigle, James Dunham McVean, Rush Porter Marshall, Miss Anna Meereis, Thomas Lawrence O'Shea, Thomas Joseph Pescatore, Ralph Hammer Scharf, Dell Leon Schoenfeld, Joseph Robinson Silver, Jr., Norris Harlan Slack, Frederick Pattison Weaver, Miss Eunice Switzer Williams, Dan Ellsworth Carpenter (class 1899).

Mr. H. W. Mitchell, '90, Dr. Collings and the Rev. R. R. Reed were elected special members. After the ceremonies, the initiates marched in a body to the Auditorium to witness the alumni welcome to the Class of '64.

COMMENCEMENT EXERCISES

Commencement Day weather was ideal. By nine o'clock the campus was thronged with visitors on their way to the Auditorium, with graduates in cap and gown, and with members of the faculty in academic costume. The procession moved from the Library in the following order: The Governor of the Commonwealth, the President of the College, the President of the Board of Trustees, the Dean of the General Faculty, the College Chaplain, the Deans of the Schools, the Trustees and Official Guests, the General Faculty, the Candidates for the Honorary Degrees, the Candidates for the Advanced Degrees, and the Candidates for the Bachelor Degrees.

The graduating class filled the middle section of seats 'back to the pillars supporting the gallery. The class numbered three hundred and twenty-three and was distributed among schools as follows: The School of Agriculture, 126; the School of Engineering, 142; the School of Liberal Arts, 6; the School of Mining, 18; the School of Natural Science, 25; and the Department of Home Economics, 6.

The Valedictory

By James Wheaton Carpenter

Mr. President, Your Excellency, Governor Tener, Friends of our College:

Classmates, four years ago as a body of 490 green, unseasoned Freshmen we entered upon our life as college students. At that

time there were before us certain opportunities that we might avail ourselves of in our endeavor to become more useful citizens of our country. As has been so forcefully said by President Hyde, of Bowdoin, we, as college students, were greeted by the college with this proposal: 'To be at home in all lands and in all ages; to count Nature a familiar acquaintance and Art an intimate friend; to gain a standard for the appreciation of other men's work and the criticism of your own; to make hosts of friends among the men of your age who are to be leaders in all walks of life; to lose yourself in generous enthusiasm and co-operate with others for common ends; to carry the keys of the world's library in your pocket and feel its resources behind you in whatever task you undertake; to learn manners from students who are gentlemen and to form character under Professors who are Christians—this is the offer of the college for the best four years of your life.' Today, classmates, we have completed our participation in that offer. Each one of us, according to his lights, has chosen of those gifts to the best of his ability. Now in quiet contemplation as we review the past four years and think of the things that college has brought to us, there must inevitably come to our minds the thought that we have received more than we have given. True it may be that we have expended money in this college and in this community, but nevertheless we have received things which money can never repay. The precious friendships alone that we have formed here are not to be estimated in the common medium of exchange. On the other hand as we think of our gain from the college we must appreciate the fact that we are under deep obligation for our betterment. To us then as college graduates comes the realization today that in consideration of valuable things given to us while in college we are indebted and as men we are bound to offer compensation. Our obligations are three fold—we owe an incalculable debt to our parents, to our college, and to the state.

First, we are under deep and lasting obligation to our families for the aid they have rendered us as we have struggled with the problems of the past four years. It has oftentimes been through their sacrifices that we have made our gains. If at times all others appeared cold and apathetic, and seemingly there was nothing in store for us but disappointment and defeat we have turned to them for courage and confidence. As we look back over the years of college life and tell in recollection our failures and successes we see,

oh, so distinctly, the loving assistance of fathers, mothers, sisters, and brothers and our hearts rejoice that we may have with us today our beloved ones as we finish one more chapter in this book of life.

Secondly we are obligated to this college that we cherish as our Alma Mater. We have shared in the blessings and the benefits that have resulted from the work of other loyal Penn State men. We have received the heritage of effort carried on since this college first opened its doors in the black days of the Rebellion. We have enjoyed the fruits of labor of those who have gone before us. We as college men and women have received much that the world cannot offer in any other place; the experience from student activities, the life in a community of good feeling and generous sympathy, the association with older and more experienced men and women, and the friendships that are golden and eternal; these are benefits that we have not yet truly appreciated. As undergraduates we have aided to the best of our abilities in preserving those verile college customs and in cherishing that strong dominant college spirit that make a college a true force in character building. In future years, with the experience of world and the testing of time upon the careers that we have started here, we shall have the opportunity, aye, the duty, of paying back to Alma Mater in some degree for the benefits we have received from her. Then when we shall see any need in our college we shall feel in duty bound to render any assistance in our power to aid the institution in marching onward to its position in the front rank of American colleges.

Thirdly, we have debts to the state, and as we think of them we need not speak for ourselves alone but for the college men and women throughout our entire country for we are all indeed wards of the state. It has well been said that the chief business of a republic is education and we stand today as the finished product of that business. We are the completed output of the national factory that expends over \$600,000,000 annually in education. We are graduates of an institution that stands as a monument to the progress and generosity of the state of Pennsylvania. We are told by economists that the college man receives three times as much as he gives. George H. Fisher recently said 'For every dollar paid by a college man for his education, some one pays \$2.12, including \$1.13 contributed by the state as an investment and 68 cents kindly donated by charity. College training would be prohibitive in cost, except to the wealthy, if the entire expense had to be borne by the student.'

No self respecting man likes to be the object of charity. If at any time he is the recipient of benevolence, he feels in honor bound to pass the favor on to some less fortunate fellow. This is the debt the college man owes to the community, to pass on to others the benefits he has received in money, earning capacity and in those higher things that money cannot measure.

Society has a right to expect more of its college trained men than it is receiving. Every college graduate owes a debt the payment of which can only take some form of public, social or civic service. No college man has the right to live a life for himself.

Thus we see, classmates, that we can not live unto ourselves alone. We are bound by the laws of man and nature to render an accounting for our benefits. We are indebted in a three fold way to our families, to our college, and to our state.

To you, our loved ones, who have followed us at every step through our college course we offer our sincere and earnest appreciation. Today amidst these scenes of victory we place our tribute at your feet. As time goes on we shall endeavor to justify the faith that you have placed in us.

To you, Mr. President, as the representative of this college, the Board of Trustees, the Faculty, and the Student Body, we pledge ourselves to the help of Penn State. As opportunities present themselves we shall answer with the best that we can give our college. As we go through life we shall remember that we are indeed 'compelled men' and we shall strive to acquit ourselves to the honor of our Alma Mater. Some of us have seen the vision of a new home life for our college men and we shall endeavor to accomplish that ideal. All of us are filled with the warmth and fire of true Penn State spirit and we shall ever strive to show our appreciation to this college and its Faculty through acts of service.

To you, Governor Tener, as the representative of the State, we pledge our lives to deeds of service for others. Ours shall be a goal of public good and not of private gain. As the problems of social, political, and economic advancement present themselves in this State we hope that we may take our share in their solution and to some extent fulfill our obligations to the Commonwealth. May we aid in carrying Pennsylvania forward and upward with the same degree of success that has marked your efforts.

Fellow Classmates, we stand now at the entrance of the Long Vacation. No more shall we frolic over campus ground or through

college halls, nor more shall we participate in the contests of muscle or mentality; no more shall we grasp each other by the hand or cheer each other on to untiring effort. There is nothing left to us now of our college days but the fond delights of memory. Once more we are Freshmen and this time it is in the stern school of Life. But we need not look upon the past with regret; let us remember our blessings; let us feel our obligations; let us pledge ourselves to the payment of our debts. Classmates, let us remember that we inherit the priceless gift of the ages; we are citizens of a great Commonwealth and upon us devolve the duties of true citizenship. Let us remember that the call of our age is not for opportunities but for men and we must try to answer that demand. Let us be true to our families, let us be true to our college, let us be true to our State; let us be true to ourselves; let us pledge ourselves to service as we say to Alma Mater, 'Farewell!'

The Commencement Address

In introducing the Commencement orator, President Sparks said:

"History is frequently made by precedent and precedent is made by executive action. The first meeting of the Board of Trustees of this college was held in the office of the executive of the State and the committee chosen to select a site for the college included the executive. In the fifty years of the history of the college it was to be supposed that all phases of its nature and work had been covered in executive messages and utterances; but it remained for the present governor to voice an advanced idea, to put into words a growing conviction among its citizens when he said from this platform last November, 'Owing to its peculiar relation to the State and its lack of a wealthy constituency upon whom to draw, The Pennsylvania State College in my opinion should have first consideration after the public schools in appropriating money for educational purposes.

That this statement was not made simply for effect was proved when this governor gave the largest appropriation ever made to this college, an appropriation which made maintenance and buildings more nearly commensurate with the extraordinary increase in number of students. As a further precedent, he consented to be the first governor of the Commonwealth to give the Commencement address

—a precedent which I hope will be observed by later governors during their terms of office.

Under these circumstances, I present for your favor our distinguished guest and friend, His Excellency, John K. Tener, Governor of Pennsylvania."

Governor Tener spoke as follows:

"Members of the Graduating Class, Guests and Friends:

The President of this college is always flattering in his introductions. I am fond of coming up here because I always hear something new about myself when he introduces me. Once when he made some complimentary remarks about my home life, showing what a model host I was in my own house, I went back to Harrisburg greatly elated. I told Mrs. Tener all the fine things the Doctor had said. She listened patiently and then said: 'John, you must be leading a double life.' [Laughter].

I am fond of coming to this college for another reason—a reason in fact why I am here today. It is because of the peculiar work being done here. No man of affairs uses his time without planning. I am willing to give the time necessary to point out to these young men and women just what the State of Pennsylvania is doing for them.

During the early part of your lives, members of the graduating class, you were dependent upon those who gave you birth; you were small, helpless infants who must be housed and fed and clothed. You were only minor parts of a family; you produced nothing; you earned nothing. Had you remained in this condition, you would have added nothing to the world's comfort, to its prosperity, and but little to its happiness. You would have been users but never producers.

As you advanced in years, as your mental and physical faculties developed, you began to be of service about the house in small tasks and chores. These increased as the years passed and you took on the character of an assistant or aid. Still you produced little or nothing. It was said of you, 'John or Mary is in school. He or she cannot yet become a wage earner. Nothing must stand in the way of an education.' Such was the attitude of your parents. The sacrifices made by the parents of many of you will never be written, will never be known. They patiently and willingly bore their hardships

in order that you might have a preparation for life—a preparation many of them never had. To these parents who are here today I offer my congratulations.

You graduates have now spent many years in school; you have made many preparations for meeting the work of life. It is true that we call this a Commencement—a beginning of life's work. You will continue to learn, you will continue to gain experience in the school of life where tasks are harder than any set by your professors. But so far as your formal preparation is concerned, it is now at an end.

The especial thing and the very thing I want to point out on this warm morning is the fact that you entered upon your educational training a dependent factor in life. You were dependent upon others for sustenance and upon the state for an education. You leave here an independent agent. Any one of you is prepared to earn his or her living. That is what your parents and the State have done for you.

This state institution appeals to me because it furnishes a practical education for its students in addition to all the other lines of work it follows for the public good. I know what it means to face the hard tasks of actual life without adequate preparation. I contrast the situation of these young people with my own at their age and I rejoice with them in their alluring and flattering prospect in life.

To turn a dependent agency into an independent factor in life—what higher ambition could any institution entertain? What more profitable work could the state engage in than to transform these hundreds of young people from day laborers, producing only what the expenditure of so much muscular energy could produce, and to make them into foremen, managers, superintendents, inventors, improvers, who will direct by superior minds the work of thousands of laborers; who will plan better methods of doing things; who will add directly to our comfort and happiness.

This is what I conceive to be the transforming of a dependent into an independent agency; from a controlled into a self-controlled person, from a consuming into a producing unit. That is the work that Pennsylvania is doing in her State College.

Pennsylvania expects a return from you graduates. She has made an investment in you and she has a right to demand a return.

You will not be expected to pay back into the treasury of the state whatever your allotment of the taxes going into this institution may be; but you will be expected to add your share to the material prosperity of the state. You must contribute your educated labor to her general welfare. You must not only assume your share of the public duties of citizenship but you must direct others in sane lines of reasoning. The mass will always be directed by leaders. The larger the spread of intelligence, the greater the chance for the demagogue to get a hearing. The state has inculcated into you here through trained teachers the principles of sound government; you must pass it along to others.

You need not seek afar for opportunity. It is here about you. Sometimes we hear enthusiasts say of a distant land, 'That is God's country,' as if God had done everything for it, leaving nothing to man. Well, the tropics are splendid examples of God's country. Nature provides lavishly and the people are correspondingly improvident and unprogressive. I say to you that Pennsylvania is man's country. Here God has given one of his greatest gifts—and that is opportunity. He has provided a fertile soil, abundant timber, vast mineral treasures, and a climate which is favorable to labor in the growing season, but so cold in winter that man is forced to become provident and thrifty—to lay up stores and fill granaries against the rigors of the winter's storms.

That you may appreciate fully the blessings and opportunities open to you in this state of ours and may take advantage of every legitimate opening is my earnest plea to you today. That Heaven may smile upon you and that your parents may feel amply repaid by your success in life is my prayer for you as you receive your diplomas and leave the sheltering walls of Old Penn State—your Alma Mater."

President's Statement

"Owing to lack of adequate space in class-rooms, laboratories and shops, only six hundred Freshmen were admitted to the college last September. More than two hundred applicants prepared to enter were rejected. The same policy must be pursued next September. Notwithstanding this limitation, the upper classes maintained the average growth of the college. The total registration for the year reached two thousand nine hundred and forty-eight. Of these almost two thousand are enrolled in the regular four year

courses and are looking forward to graduation. The remainder are in the so-called "short courses" and in the Summer Session for Teachers. Two thousand six hundred and eighty are from Pennsylvania; two hundred and sixty-eight from other states and foreign countries. The corps of instructors and experimenters now numbers two hundred and fifty-one.

The gifts of the college to be announced at this time, while pitifully small when compared with those of other institutions of like size, are significant because of their varied origin. To the benefits which he has already conferred upon his Alma Mater, Mr. J. G. White adds the further beneficence of a gift of \$7,000 for the support of three scholarships in the Spanish language, one of which shall be available to a student coming from a Latin-American country. The gifts of the year also include the sum of \$6,200 from the Penn'a Federation of Women's Clubs for the support of two scholarships for women in the Domestic Science Courses. Also a gift of \$1,000 from the Daughters of the American Revolution of Pennsylvania for the maintenance of a scholarship for a woman in the Liberal Arts Courses. Also a bequest of \$8,000 from the late Norman Greenawalt Miller, an alumnus of this college, '04, for the support of the Christian Association work—'04 anniversary.

The college classes set a splendid example for persons charitably inclined. The cultural effect of music is acknowledged. In our rural situation, little opportunity is afforded to hear good music outside that supplied by ourselves. The splendid service rendered by the college choir, glee club, orchestra and band will be supplemented hereafter through the generosity of the Class of 1914 aided by a few alumni. To them the college owes the gift of this organ, which, when its setting is complete, will be not only serviceable to the college, but an ornament to this building.

The Freshman Class many years ago began an annual custom of placing a symbol on the tower of Old Main at Commencement. It was taken down in a few days and nothing permanent remained to repay the expenditure of the money. Last year the Freshman Class substituted for the symbol the ornamental lights which you will see on the front of this building. The present Freshman class, not to be outdone, has substituted for its symbol a carved *sedile* or chair which will be used solely for the granting of degrees at Commencements. Through an unfortunate delay, the chair is not ready for this Commencement and a substitute is used.

Death has removed from us during the year three trustees of this college:—The Hon. Marlin E. Olmsted, the Hon. J. F. Ailman, and General James A. Beaver. During the first forty years of its existence, this college went through a formative process which tried the souls of its supporters and defenders. Among these heroic figures of the past, there stand out prominently: Dr. George W. Atherton, who for twenty-four years bore the brunt of battle for public recognition and a higher scholastic standing; Mr. William C. Patterson, who at times even brought his personal credit to the financial aid of the institution; and General James A. Beaver, who as governor in 1887, signed the first regular appropriation bill for the college, whose services for forty years as Trustee contributed to the enthusiasm of the Board meetings; whose judgment in connection with the college aided in gaining the favor and confidence of the public; and whose confidence in the future of the college was a never ending source of inspiration to the student body. In memory of these three friends, let us rise.

The college classes several years ago raised \$5,000 for the construction of a college hospital. Promises from friends were secured for \$10,000 more; but for various reasons most of the pledges have not been redeemed. I stand on this platform today and repeat the plea I have made during the past four Commencements for this needed building. The Class of '09 has just voted \$500 for this worthy purpose. Will not this audience pledge an equal amount

The year has been marked by a steady elevation of the student standards and ideals; the adoption of a one-year residence rule for participation in inter-collegiate athletics—the last act necessary to put this college on a par with the requirements of the largest and best institutions; the unfortunate defeat of an honor system for examinations; a continued success of the self-government plan; a cordial relationship between students and faculty; and I believe a steady growth of the college in the good-will of the people of the Commonwealth. No state institution can ever rise higher than the pride and confidence of the people will warrant. We have every reason to believe that the state will continue to support it according to its merits and every hope to believe that the college will continue to merit that support. But the college needs now above all thing a *dependable* means of support such as is given to the normal schools in this state and such as twenty-nine other states have given to their state institutions. This permanent annual support will enable it to

fulfill the high ambition which President Lincoln had in mind when in 1862 he signed the bill under which it was founded for the education of the industrial classes in the several pursuits and professions in life.

The name of Lincoln reminds us that the calls issued by him for soldiers to preserve the Union sadly interfered with the work of this college. Students and faculty left books and classes to take up the gun and knapsack, among them many members of the Class of '64. Today we welcome these men, survivors of that war class, accompanied as they are by one of their instructors of that day. May their devotion to their country and their loyalty to their college be an inspiration to all of us, and especially to this graduating class.

The college today confers the master's degree on thirty-one graduate students and the bachelor's degree on three hundred and twenty-three undergraduates. This class when it entered four years ago numbered four hundred and ninety. Consequently we graduate sixty-six per cent. of those entering. Last year the percentage was sixty-four; five years ago 49 per cent.

This class goes forth bearing our high hopes that the high standard of right conduct, of Christian service, and of devotion to duty which has especially characterized it, will continue as its members are separated and that they will take up their share of the alumni task of justifying by lives of usefulness the expenditures made by the state on this institution.

ALUMNUS HEADS BOARD OF TRUSTEES

At the annual meeting of the Board of Trustees of the College held on Monday, June 8th, Mr. H. Walton Mitchell, '90, was elected to the position of President of the Board to fill the vacancy caused by the death of General James A. Beaver.

Mr. Mitchell comes to this position of high honor and great responsibility with especial qualifications for its duties and is the first alumnus of the College to hold the place in the history of the institution. First elected a trustee in June, 1902, his twelve years of faithful and noteworthy service, his intimate knowledge of college history and conditions and his close association with the dominant figures in the administration of affairs particularly fit him for the work. He has served for a number of years as Vice President of the Board and during the protracted illness of General Beaver was

its acting President. Mr. Mitchell is a member of the law firm of McKee, Mitchell and Alter, of Pittsburgh.

Mr. J. G. White, '82, of New York City, was elected Vice President of the Board, and Judge Ellis L. Orvis, '76, of Bellefonte, was made a member of the Executive Committee.

As a result of the election of trustees by the delegates from the county agricultural and engineering societies, Messrs Vance McCormick, of Harrisburg, W. H. Patterson, of Clearfield, and C. M. Schwab, of Bethlehem, were re-elected for three year terms, and Mr. E. R. Pettebone, of Scranton, Chief Engineer of the coal department of the Delaware and Hudson Railroad Company, was chosen for the three year term to succeed the late J. T. Ailman. Mr. L. T. McFadden, of Canton, Pa., President of the State Bankers' Association, was elected to fill the vacancy caused by the death of General Beaver whose term did not expire until June, 1915.

J. L. Hamill, '80, H. W. Mitchell, '90, and J. F. Shields, '92, were re-elected for three year terms by the alumni.

PROGRESS ON NEW BUILDINGS

All the additional college buildings provided in the appropriation of the last legislature are under construction but only two or three will be available for student use by the opening of college in September.

The two upper stories of the Horticultural Building have been finished and the structure is now in use. The Number Three Engineering Unit is receiving the finishing touches and will be in service in September. The Liberal Arts Building, the Stock Judging Pavilion and the Dairy Barn are well along towards completion. Excavation for the Mining and Natural Science Buildings has been started. The new home of the University Club, erected by private subscription among the club members, will shortly be ready for occupancy.

A full description together with photographs and layout of the campus showing the plan of present and future building construction will appear in a subsequent issue of The Quarterly.

COLLEGE NEWS EDITOR APPOINTED

Probably no one thing has called forth more universal complaint among alumni than the unsatisfactory reports of Penn State news in the daily press. The college authorities have for a long time appreciated the situation and at the June meeting of Board of Trustees took steps to improve general publicity conditions by creating the position of College Editor.

It will be the duty of the College Editor to supply general news of the college and its various interests to the city and country newspapers and special articles to the technical and professional publications, to edit college catalogs and bulletins, to act as advisor to student publications and to offer instruction in elementary journalism in the department of English.

Mr. Albert O. Vorse, a special writer on the Philadelphia Public Ledger, has been offered the new position and in all probability will accept. Mr. Vorse received his B. A. degree at Bucknell University in 1905 after which he was employed as a reporter on the Public Ledger. After several years in this work he became a special writer on conservation topics. To further equip himself he entered the Forestry School of Yale University where he received his M. A. degree and then returned to the Public Ledger.

REVIEW OF SPRING ATHLETICS

Playing one of the hardest schedules faced by a Penn State team in years, the 1914 baseball "rookies" materially improved upon the record of the more veteran 1913 team. During the season just closed 22 games were played, 13 were won, 8 lost and one resulted in a tie score. The 1913 record was 10 victories out of 20 contests.

This record was gratifying as the expectations were that the 1914 season would be largely a period for the development of material for the following year. The withdrawal from college at the end of the first semester of Captain Wardwell came as a severe blow, leaving the pitching staff short handed with the burden of work on Hasselbacher and Liebert. Liebert, late in the season, fell off in his usual effectiveness further aggravating the situation. Vogt, '15, catcher, Bob Craig, '14, Shorty Miller, '14, Crawford, '15, and Kominars, '16, outfielders, were the only seasoned men Coaches

Manning and Haverstick had as the nucleus for a team, leaving an entire infield to be developed. At the end of the indoor and early season outdoor experimental period the first varsity lineup was as follows: Catcher, Vogt, '15; first, Robinson, '17; second, Craig, '14; short, Weber, '16; third, Blythe, '17; right field, Crawford, '15; middle, Captain Miller, '14; left field, Josephson, '16; pitchers, Hesselbacher, '16; Liebert, '15; and Tobin, '15. The team was perhaps above the average college nine in fielding and base running but uncertain at the bat.

Gordon Vogt, '15, of Emporium, Pa., was unanimously elected Captain of the team for the season of 1915. Vogt is distinctly a Penn State product. A graduate of the inter-class league he has developed into one of the best backstops who ever wore the blue and white and, as a man who holds the confidence of the players, should make a most able leader.

Samuel H. Miller, '14, of Mercer, Pa., is the Manager-elect for the coming year.

The summary of the season:

Penn State, 3; Univ. of North Carolina, 0.
 Penn State, 5; Trinity College (N. C.), 1.
 Penn State, 2; Washington & Lee, 10.
 Penn State, 1; Univ. of Penn'a., 2—11 innings.
 Penn State, 3; Villanova, 1.
 Penn State, 14; Dickinson, 3.
 Penn State, 5; West Virginia Univ., 1.
 Penn State, 3; Lehigh, 3—12 innings.
 Penn State, 4; Lafayette, 10.
 Penn State, 5; Univ. of Vermont, 3.
 Penn State, 5; Dartmouth, 1.
 Penn State, 2; West Point, 7.
 Penn State, 4; Princeton, 7.
 Penn State, 6; Franklin & Marshall, 2.
 Penn State, 6; West Virginia Wesleyan, 5—12 innings.
 Penn State, 11; Washington & Jefferson, 1.
 Penn State, 3; Pitt, 6.
 Penn State, 2; Carnegie Tech., 6.
 Penn State, 5; Ursinus, 4—11 innings.
 Penn State, 11; Juniata, 5.
 Penn State, 7; Pitt, 4.
 Penn State, 6; Chinese Univ. of Hawaii, 8.

Winning a first place at the Penn Relays for the first time since 1901, scoring an overwhelming victory in the Western Penn-

sylvania Intercollegiates, decisively defeating Pitt in dual meet, the establishment of two new Penn State records and the winning of a place in the National Intercollegiates at Harvard is the story of the 1914 track season in brief.

Coach Martin is bringing to the fore this branch of Penn State athletic activity which in the past has received little encouragement and is gradually building the sport to the point where Penn State will annually make a showing in the big Intercollegiates.

In the dual meet with Pitt at Commencement time, White, '16, set up a new local record of $21\frac{4}{5}$ seconds in the 220 yard dash while Page, a freshman who could not do over 10 feet 6 inches when he entered college, established a new record of 11 feet 7 inches.

E. P. Hammitt, '16, of Apollo, Pa., a point winner in the hurdles at the National Intercollegiates, has been elected Captain of the 1915 team with G. S. Denithorne, '15, of Huntingdon, Pa., as Manager. Coach Martin has been re-engaged for another year.

Penn State's second year of varsity lacrosse, although not a victorious one, showed a marked improvement in the players individual skill. Our men with whom the game is so new have much to learn in team play. That this development will gradually come was indicated by the performance of the team against such seasoned aggregations as Hobart and Carlisle.

The summary of the season:

Penn State, 6; Baltimore City College, 0.
Penn State, 1; Univ. of Penn'a, 4.
Penn State, 8; Baltimore Polytech., 5.
Penn State, 3; Hobart College, 10.
Penn State, 1; Carlisle Indians, 7.

Walter Farley, '16, who has done so much to develop this interesting sport, has been elected to the Captaincy for the third time.

Penn State still falls short of turning out a winning tennis team. University of Pittsburgh twice defeated us by the same score of 6 to 1, while our players registered victory over Carnegie Tech. 6 to 0, and over Westinghouse Club 4 to 2.

PENN STATE ADOPTS ONE YEAR RULE

At a monster student mass meeting on April 29th the "One Year Residence Rule" was unanimously adopted to go into effect September, 1915. By this action Penn State is placed on the same eligibility plane as Yale, Harvard, Princeton, Penn, Cornell, Dartmouth, Syracuse and the leading colleges and universities of the west, and should accordingly be able to improve its athletic relations with those leading colleges.

An interesting feature in the endorsement of the new rule was that over 1200 students out of the total of 2100 turned out to vote on the proposal and not a dissenting voice was heard. As the one-year rule has been under discussion for over a year among Alumni and undergraduates this fact indicates deliberate action.

The new ruling is delayed in enforcement until September, 1915, to give the athletic authorities ample time in which to perfect the system of all-year-round coaching and the organization of training for first-year men.

Under the one-year rule between 1600 and 1700 men will be eligible for intercollegiate athletics. Based on figures of the present year this gives Penn State more men to draw from than Harvard, Yale or Princeton.

The revised Eligibility Code involving the One-Year Rule is as follows:

"A student of the Pennsylvania State College to be eligible for Intercollegiate Athletic competition must be fully matriculated and in good standing in any one of the four year courses of collegiate grade."

"No student of The Pennsylvania State College shall be eligible to compete in any Varsity Intercollegiate contest until he has completed one year of residence as a student in any regular four-year collegiate course."

"No student shall be eligible for Intercollegiate Athletics who has previously competed for three years either in this or any other college of equal scholastic standards."

"No student who has received a Bachelor's Degree from this college or any other college of equal scholastic standards shall be eligible for Intercollegiate Athletics."

"Any questions of interpretation of these rules shall be submitted to the Alumni Advisory Committee for adjustment."

ALUMNI NOTES

Births

'91—On March 3, 1914, a son was born to Mr. and Mrs. D. M. Taylor, of Cleveland, Ohio.

'04—Mr. and Mrs. H. C. Ray announce the birth of an eight pound boy on July 13.

'05—Henry Herbert Arnold, born April 4, to Mr. and Mrs. Thomas H. Arnold, of Allentown, Pa.

'05—Frank E. Yoder, Jr., was born at Newark, N. J., on May 26, 1914. "Billy" reports that the young man "weighed in" at nine and a half pounds.

'10—Through an oversight The Quarterly failed to announce in a previous issue the birth of a daughter, Mary Edith, to Mr. and Mrs. P. B. Jacobs, of Fairmont, W. Va., in July, 1913.

Marriages

'62—Thomas P. Roberts, of Pittsburgh, a member of the class of '62, announces the marriage of his daughter, Mary Brunot, on June 17, to Lieut. Francis K. Newcomer, U. S. A.

'07—H. D. Mason, Jr., better known to the alumni as "Joe" Mason, was married on April 20th to Blanche Odell Frye, daughter of Mr and Mrs. John H. Frye, of Charleroi, Pa. "Joe" is with the United States Bureau of Mines with headquarters in Pittsburgh, Pa.

'10—Mr. and Mrs. H. Z. Cramer announce the marriage of their daughter, Bernice, to Rev. Wayne O. Kantner, June 22, at Battle Creek, Mich.

'11—The marriage of Lowrie C. Barton, Jr., to Elizabeth Baker, daughter of Mr. and Mrs. Thomas D. Baker, of Lewisburg, Pa., was solemnized on April 29th at the home of the bride. Mr. and Mrs. Barton are living in Overlook Park, Cincinnati, Ohio.

'11—John Marshall Snyder was married on July 15th to Ada Caroline Pattee, of Billings, Mont. The "at home" cards announce Billings after September first.

'11—Harry Bubb was united in marriage to Grace Alleine Geiple, of Glenn Rock, Pa., on June 1st. Mr. and Mrs. Bubb will live in Cokedale, Colorado.

'11—Mrs. Ada L. Chesnut, of Pittsburgh, Pa., announces the marriage of her daughter, Sara Edith, to William M. Riddle, on July 9th.

'11—Clarence R. Stewart was married on June 23rd to Miss Carrie E. Bracken, of Homer City, Pa. Mr. and Mrs. Stewart are living at Camp Merrill, Pittsfield, Mass.

'11—T. D. Harman, Jr., and Elizabeth Renick Weldon, of Circleville, Ohio, were united in marriage on April 21st.

'11—John F. Forsythe was married on March 25th to Vera Octavia Watson, daughter of Mr. and Mrs. W. S. Watson, of Butler, Pa. Mr. and Mrs. Forsythe are living in Newport, Washington.

'12—Richard C. Harlow and Lila Naivette Gilpin, of Laanna, Pa., were married at the home of the bride on June 30th. "Dick" was ably supported in the ceremonies by two of his former football teammates, "Pete" Mauthe and "Dutch" Herman. Mr. and Mrs. Harlow will reside in State College where Dick is in charge of football activities.

'12—Clinton D. Gilpin and Miss Frances Hollister Killam, of Paupack, Pa., were married on June 27th.

'12—Harold L. Borden was united in marriage to Miss Kathryn L. Hamilton, of Whitewater, Colorado, on May 5th. Mr. Borden is in the United States Forest Service on the Gunnison National Forest with headquarters at Gunnison, Colorado.

Deaths

'99—One victim of the tragic Missouri Athletic Club fire in St. Louis on the night of March 8th was J. Luther Haehnlen, a prominent Penn State alumnus. The fire, which completely destroyed the club house, broke out about 2:00 A. M. The room in which Mr. Haehnlen was sleeping was on the sixth floor of the building in that portion of the building above the third floor which collapsed. The body was not recovered until March 13th. Mr. Haehnlen had recently moved to St. Louis from Woodward, Alabama, to assume charge of construction of the new by-product coke plant of the Laclede Gas Co.

LOST

The Secretary will appreciate any information as to the whereabouts of the men contained in the following list:

- 1865—Frank Crook, W. W. McLanahan.

RANKING OF CLASSES.

According to Alumni Association Membership for the Year Ending June 1, 1914.

The following record takes no account of the new members of the Association who affiliated before the end of the fiscal year with membership to apply on the year 1914-1915.

Please note also that during the coming year the method of computing this table will differ from that used in the past year. The series of tables published for the year 1913-14 (except the one given herewith), listed as active members a number of alumni who had been regular members of the Association during the preceding year but who were delinquent for the current year at the time the magazine went to press. This course was followed on the assumption that those who were delinquent would remit their dues before the close of the year. Future tables, however, will take into account only the number of alumni who have paid their dues at the time the magazine goes to press.

WORDS OF WISDOM

By The Treasurer

The sum of money spent by the General Alumni Association last year for the printing and postage used in collecting annual dues was large enough to pay the cost of an additional issue of the Quarterly. Second, third and, in some cases, fourth notices had to be sent to some members. When remittance of the delinquent dues was finally made, the sender invariably ascribed his tardiness to pure negligence.

Prompt payment of alumni dues means a better alumni publication.

* * * * *

Boost your class out of its present place in the "Rank of Classes According to Association Membership." Pay your own dues promptly and urge your classmates to do likewise. Ask the Alumni Secretary to send you a list of the members of your class who are not affiliated with the General Alumni Association and do a little boosting among those fellows you know real well. An increased income to the Association from membership fees increases the value of your own Two Dollars—more funds for the Penn State Booster Campaign and a better alumni magazine to you.

* * * * *

It is very probable that within the next few months the Alumni Quarterly will be supplemented by a monthly publication—we believe you want to hear from your old College oftener than every three months. This new venture, however, will call for an increased income and will need your co-operation to make it a permanent thing. Boost for more Boosters.

* * * * *

It may be impossible to send out bills for 1914-15 dues and get full returns before the next issue of The Quarterly goes to press. In such a case the table showing the Ranking of Classes According to Association Membership will record the members who have remitted their dues without waiting for a bill. Don't wait for a bill. Help cut the cost of collecting dues. You may be one of those who has already paid for 1914-15. If not, use the blank below, NOW.

R. H. SMITH, Treasurer,

The Alumni Association,

120 Main Building, State College, Pa.

Herewith is TWO DOLLARS (\$2.00) to cover dues in the General Alumni Association and Quarterly Subscription for the year 1914-15.

DO YOU KNOW

That A. G. Spalding & Bros. spend thousands of dollars in making just one implement--or a single ball? Sometimes a bat--a racket--or a pair of shoes. The first ones that are made each cost a small fortune

Made---Remade---Tested. Champions try and test them.

And the models get the worst of usage.

Then any faults appearing are at once righted. Only when perfected, after the severest tests, do we offer them to the public. **IF IT'S SPALDING'S IN SPORT IT'S RIGHT.**
